AUDITOR'S REPORT

Salisbury, N. H., Feb. 20, 1942

I hereby certify that I have examined the accounts of the Selectmen, Collector and Treasurer and all other town officers and find them correctly cast and properly vouched.

GEORGE C. EMERSON, Auditor.

FOREST FIRE WARDEN'S REPORT

The 1941 fire season was the worst on record in the State of New Hampshire. More fires occurred, more area was burned over, greater damage was done to our woodlands, higher losses were sustained in other real property burned and the cost of suppressing fires was greater.

There will, perhaps, never be more ideal conditions for fire than existed in 1941. A scarcity of rain left the forests in a highly inflammable condition. The accompanying high winds spread fires with almost lightning rapidity through the parched forest lands. These conditions, coupled with human carelessness, made 1941 outstanding in the state's forest fire record.

As we approach the 1942 fire season, we wonder just what may be in store for us. The woodlands are in as critical condition as they were last year, if not more so. Blown down trees still clutter sizeable acreages of our woodland areas; the increased tempo in lumbering operations due to war demands are each day, adding to the fire hazard an ever increasing number of acres of slash land; and we face the coming fire season with greatly reduced personnel, due to the shifting of men from our small communities into the armed forces of the country and into defense industries. If, however, everyone will be careful, if they will follow the rules and regulations laid down for the use of fire in and around woodlands, much of our difficulties will be eliminated—our fires kept few in number with a consequent saving of expense to town and State.

There are so many possibilities for trouble this year it will require the wholehearted and patriotic cooperation of everyone concerned if we are to avoid serious difficulties. Persons hostile to the best interests of our country and sub-normal individuals affected by the excitement of the times may easily cause tremendous confusion and disruption of local activities by deliberately starting fires in our woodlands. Suspicious circumstances connected with every fire should be made known to the proper authorities. Wardens and

Deputies are being instructed this year to investigate all fires carefully. Parties at fault will be held strictly responsible. With our forces weakened, it becomes more necessary for everyone to comply with regulations which have been set up to govern the use of fire in our woodlands. These are briefly as follows:

1. Secure a permit from your local forest fire warden to burn brush or other debris in or near woodlands, or where fire may be communicated to such lands, once the snow has left the ground. Violation of this requirement makes the responsible party liable.

(a) To a fine not to exceed \$500.00 or imprisonment of not more than one year or both.

(b) To the town for expenses incurred by the warden in attending or extinguishing such fire.

(c) For damage to abutting owners if fire runs upon abutters' property.

2. DON'T drop or throw from any vehicle while same is upon a public highway or private way and

DON'T drop, throw or otherwise deposit on or near woodlands any lighted match, cigar, cigarette, live ashes or any other substance liable to cause a fire.

Violation of these prohibitions penalizes whoever is found guilty with a fine of not more than \$25.00.

3. DON'T fail to promptly notify your local warden of any fires you see.

The 1941 fire record for Salisbury is as follows:

Number of Fires,	2
Acreage Burned,	1¼
Cost of Suppression.	\$75.01
Number of Permits Issued,	7
